

# **Indicators of Compromise** **(IOCs)**

## Infrastructure

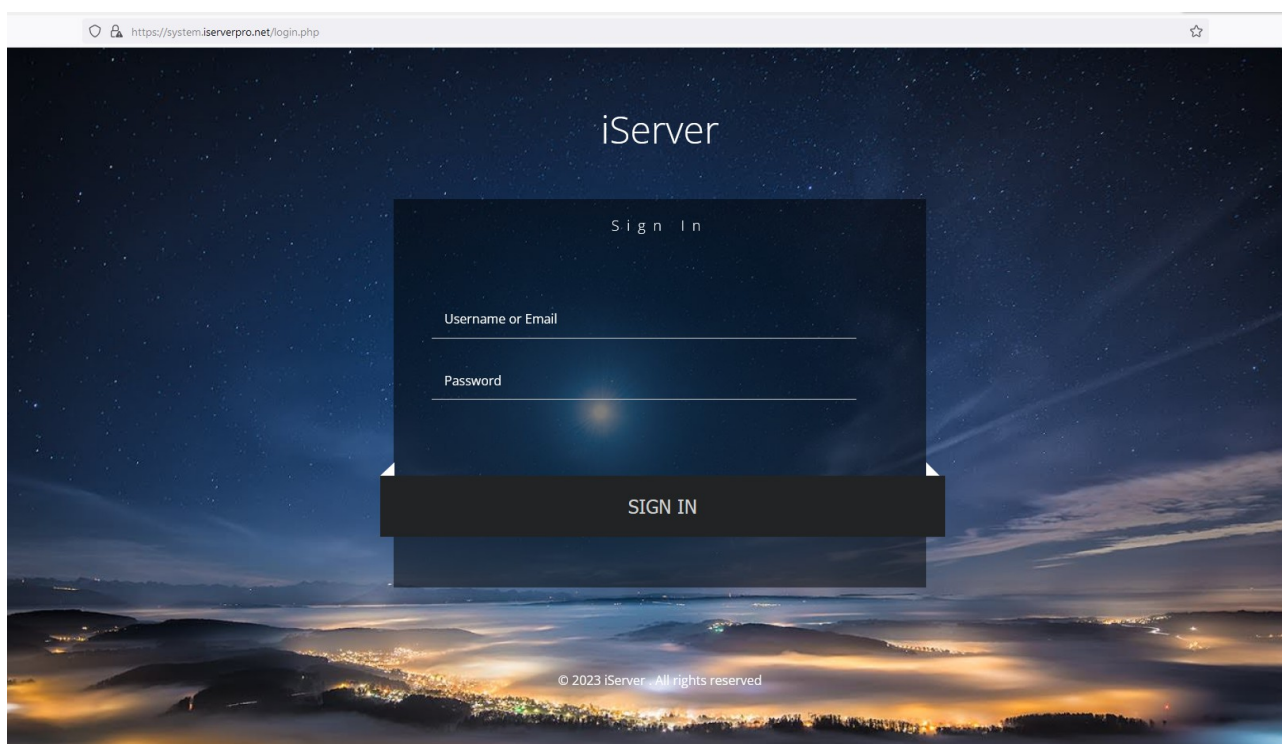

We have identified the vast infrastructure of this syndicate which operates by hosting huge number of phishing domains of Apple icloud, on various IPs.

As part of their defence from detection is they continuously change their domain pointing to different IPs.

As we have discovered, these threat actors have created Control panels for phishing activities.

<https://system.iserverpro.net/login.php>

hosted on 81.161.229.34

### **Other Potential phishing domain hosted on IP 81.161.229.34**

<b>Date of Resolution</b>	<b>Domain hosted on IP 81.161.229.34</b>
